

## Syllabus: Algebra II Saxon

### Course Description

Algebra II Saxon is offered as an alternative to the standard Algebra II course. It will help those students who may struggle with math or those who benefit from more repetition. Students will be prepared for Pre-Calculus through explicit embedded geometry instruction. Trigonometry concepts, statistics, and applications for other subjects such as physics and chemistry are also included. Algebra II Saxon meets the Algebra II requirement for the VSA Associate Level diploma only. Homework will average 3 - 5 hours per week.

### Attendance and Participation

Both attendance and participation are vital parts of this course; therefore, students are required to attend class sessions and participate actively in discussions. Students are expected to view archives of any missed classes, and are responsible for obtaining any notes or assignments.

Students will be given quarterly grades for both participation and attendance:

- Fifteen percent of the final grade will be attributed to *relevant class participation*. This includes raising one's hand, commenting regularly via microphone/webcam, and using the chat box regularly to contribute to the academic conversation.
- Five percent of the final grade will be attributed to *class attendance*. Being present, being on time, and readiness for class are all factors to be considered in the class attendance grade. *Excused* absences will not detrimentally impact attendance grades.

Grading rubrics are located in the Course Documents folder in each course page.

### Assignments & Exams

There will be a problem set assigned for each class period. Some problem sets will be comprised of problems from more than one section. All problems must be completed by the beginning of the class period in which they are due. Chapter exams will be administered throughout the year. Students will take a midterm exam at the end of the first semester and a final exam at the end of the year.

All exams should be taken in one sitting and proctored by an adult. Unless directed by the teacher, students are not permitted to use any helps, books, notes or the Internet on any portion of exams. All exams are due at 11:55 PM ET on the date shown. Specific instructions will be provided by the instructor.

### Evaluation

The final grade is determined on the following basis:

- |                                |     |
|--------------------------------|-----|
| • Class Attendance             | 5%  |
| • Relevant Class Participation | 15% |
| • Homework                     | 10% |

- Quizzes 10%
- Exams 30%
- Midterm/Final Assessment 30%

### **Grading Scale**

The following grading scale will apply for all assignments and final grades. 100% – 90% = A; 89% - 80% = B; 79% - 70% = C; 69% - 60% = D; 59% - 50% = E; 49% - 40% = F. All grades are rounded to the nearest whole number.

### **Late Work**

If a student fails to submit any assessment by the due date, it is considered “late.”

- Assignments submitted 0-24 hours late will result in a 10 point reduction off earned grade.
- Assignments submitted 24-48 hours late will result in a 20 point reduction off earned grade.
- Assignments submitted 48-72 hours late will result in a 30 point reduction off earned grade.
- Assignments over 72 hours late will not be accepted and the student will receive a zero.
- Parent may request an extension from their child’s teacher *prior to the due date* or in the case of an emergency.

While we love grace and the opportunity to exercise it, we also desire to instill a sound sense of responsibility in our students, hence these expectations pertaining to late work.

### **Exam/Test Retakes**

Any student may retake a failed assessment (except quizzes), but can score no higher than 70% on the retake. Retakes must be submitted within one week of the returned, failed test. If the retake is not submitted within one week, the original failing grade will stand.

### **Academic Dishonesty**

Cheating on any assignment is considered academic dishonesty. This includes plagiarism in any form. Cheating will be dealt with in the following manner:

- If a student is caught cheating, he will receive a zero on the assignment and will be placed on academic probation for the remainder of the school year.
- If the same student is caught cheating again, he will likely be expelled.
- No refunds will be granted for students who are expelled due to cheating.
- A Disciplinary Action Form will be submitted by the student’s teacher for any instance of academic dishonesty.

### **Textbooks/Materials**

The books needed for the class can be purchased through Veritas Press. It is extremely important that the student has the correct version/edition of these materials.

Saxon Algebra II Course Kit (505470)

- Saxon II Student Ed. (505490)
- Saxon II Tests and Answer Key (505460)
- Saxon II Solutions Manual (505480)

The following is required:

- Graphing calculator - TI-83 or higher

The following is recommended:

- A digital tablet is recommended but not required for this course. Many students have found a digital tablet to be useful when wanting to write on the whiteboard in the online classroom, and have therefore deemed the investment a worthy one.

### **Course Calendar**

See Course Assignment Sheet, located on course page, for class dates, breaks and all assignments and assessments. Class dates and breaks can also be found on the current academic year calendar.
