

THANKSGIVING

Setting a Bountiful Table

Learning to set a table and how to use utensils properly causes us to be more comfortable, and to make a place where your guests are comfortable. Even a young children will be able to follow directions if they have a picture to follow as they prepare. If you do not have all the pieces of silverware, use what you have and follow it as closely as possible. It is important to realize that boys need to learn this as well as girls—we want them both to be comfortable in all situations. This may be the most practical way we learn to love our neighbors as ourselves.

Mayflower

Supplies

2 milk cartons

2 straws

playdough

yellow, black and white construction paper
(or use craft foam instead of construction paper so the ship can float in water)

glue, scissors and tape

Instructions

Tape a piece of construction paper about 1/2 way up the milk carton as shown in the photo to the right. Tape black construction paper all the way up the back of the milk carton, leaving about 1 inch sticking up over the carton. Tape white construction paper over the rest of the milk carton. Glue two blobs of playdough into the center of the pirate ship. Cut a two to three inch piece off the bottom of the second milk carton. Tape it onto the ship (covering the playdough) poke two holes in it (with a pencil) right above the playdough blobs. Cover with white construction paper. Stick two straws through the holes you poked in the top carton. Cut two large rectangles and two small rectangles from yellow construction paper. Poke two holes in each rectangle with scissors or a hole punch and thread onto the straws as masts. Draw windows and a door with markers. Cut yellow circles and glue them to the side of the ship as portholes.
