# INTERMEDIATE LOGIC

*Mastering Propositional Arguments*

**CANON LOGIC  
SERIES**

*Intermediate Logic* is the best tool for understanding  
and interacting with real arguments in real life,  
wherever students run into them.

Completely revised and expanded, the *Intermediate Logic* DVD course will teach students eighth grade and up to master propositional logic. This isn't just a supplement—it's an entire logic course, developed over decades in the classroom. Let an experienced teacher walk you through every lesson in the bestselling *Intermediate Logic* textbook: truth tables, formal proofs of validity, truth trees, and much more, not to mention an optional unit on digital logic (the logical language on which most everyday gadgets run) and a vital lesson on how to identify arguments in real writing and analyze their structure.

**FEATURED INSTRUCTOR** — **Brian Kohl** has taught a variety of subjects at the high school and undergraduate level. He received his Master's degree from the University of Oxford, and currently teaches rhetoric at New Saint Andrews College. He lives in Moscow, Idaho with his wife Christy and their four children.
